MINING, BUSINESS AND STOCKS.

ANOTHER SUIT OVER **COLORADO SECURITIES**

A. T. Moon Alleges Stocks Have Been Withheld from Distribution to Stockholders of Success Co.

Charging that Jesse Knight fraudulently kept and still keeps 79,500 shares of the Colorado Mining company stock which should be distributed among the stockholders of the Success Mining company, and that he is enjoying the dividends from the stock, A. T. Moon has filed suit in the district court asking for an accounting. Moon represents former stockholders of the Success company who claim to be owners of 25,250 shares of the total capital stock of 300,-000 shares of the old Success company.

These stockholders and their holdings are: W. R. Wightman, 5,000 shares; Geo. W. Jones, 2,500; O. J. Bourne, 2,000; W. W. Jones, 2,590; O. J. Bourne, 2,000; W. W. Calder, 1,000; A. C. Smith, 2,000; Charles G. Sindar, 500; A. B. Montgomery, 2,000; W. J. Sheely, 2,000; Mrs. J. W. Farrell, 1,000; George H. Raybould, 500; C. D. Rooklidge, 500; H. S. McCann, 1,000; Homer F. Robinson, 1,000; C. Ira Tuttle, 3,000; C. S. Humphrey, 1,250; A. N. Randolph, 1,000; W. W. Rivers, 500; R. L. Colburn, 1,000 shares, These have assigned their holdings to Moon, who asserts that the ings to Moon, who asserts that the value of the holdings for which he is

suing is \$\$0,000.

The suit is against the Success Mining company, the Colorado Mining company, Ernest Williams, Jesse Knight, Jacob Evans and W. Lester Mangum, who were officers and directors of both mining companies. Williams disappeared and the affairs of both companies, in a mix-up, particularly, in connection with the transfer of the holdings of the Success company, of which Williams was secretary and treasurer, to the Colorado company. There has already been considerable litigation in connection with the transfer. suing is \$80,000.

AGREED TO TRANSFER.

Moon sets forth that on Oct. 31, 1906, at a meeting of certain stockholders of the Success company, it was agreed to accept an offer of 79,500 shares of Colorado stock for the holdings of the Success company, which were to be dis-tributed among the Success stockhold-ers at the rate of 265 shares of Colorado for each 1,000 shares of Success stock. As the directors of the Success company, he says, Williams, Knight, Evans and Mangum carried out the deal, and as directors of the Colorado company delivered the shares of that

He asserts that they knew at the time that there was a large amount of Suc-cess treasury stock on hand which should have been distirbuted among the stockholders of that company pro rata or if there was not such treasury stock there was its equivalent in Colorado

Emerson Heights

stock. None of this, he says, was ever delivered nor were the 79,500 shares of Colorado which represented the purchase of the Success properties ever distirbuted among the old company's stockholders.

On Sept. 20, 1007, he says that Knight, Mangum, Evans and Williams resigned as officers and directors of the Success company, just after an action was in-stituted against that company, and he declares that this was solely for the purpose of embarrassing the stockhold-ers in their efforts to obtain the distribution of the shares of Colorado paid for by their property. These persons, he asserts, have had access freely to the books of both companies at all times and the stockholders have not; and that they still hold the 79,500 shares which belong to the stockholders of the Success company.

Since Oct. 18, he further says, dividends on Colorado stock have amounted to \$1.70 a share, and others are likely while the litigation is pending. These dividends, he says, have been fraudulently appropriated by Jesse Knight, who was president of both companies, and that property to the value of \$80,000 is thus fraudulently being withheld. He asks for an accounting, for the court to fix the value of what is due and that the Colorado stock alleged to be withheld be delivered.

MARKET SHOWS BETTER TONE.

Stocks Hold Their Own but Business

Falls Below the Standard. Although all stocks were fairly strong on the local stock exchange the volume of business this morning was far below the standard. Interest in the market has been at a low ebb for many days and the flood tide of a stock movement is still believed to be some days away.

Buying and selling in Grand Central was fairly heavy this morning, but the stock held firm and unchanged. Mason Valley, which has been improving by jumps lately, was also in the same class. Sloux Consolidated was somewhat better than on yesterday and That's Control, was low, with but four Tintic Central was low with but few sales. Conditions at Iron Blossom are so promising that the stock has remained unchanged for several days.

The market for the week was very low. Only 498,694 shares of stock were transacted in and the amount represented was \$20,250.57

The transactions on the board this morning represented 37,600 shares, and value of \$28,882.50.

Only one sale was made on the curb market and that was Eureka Silver

RICHFIELD MINING NOTES.

(Special to the "News".) Richfield, Aug. 28.—M. L. Murray of Ephraim is in town, having just re-turned from the Gold Development min-ing properties at Marysvale. He reports work progressing nicely in the Log Cabin tunnel, and that a force of men has just been put to work at the L. & N. workings.

L. H. Outzen has just returned from a trip to the Outzen mining properties, where a force of men are doing assess ment work. Some very fine ore has recently been encountered in the tunnel, where some repair work has been done, an assay showing over \$50 in

TINTIC ORE SHIPMENTS. The shipments from the Tintic district for the week ending Friday night amounted to 192 car loads, the shippers and amounts being as follows: Centennial Eureka 40 car loads, Gemini 2, Scranton 4, Mammoth 2, Grand Central 2, Victoria 2, Sloux Consolidated 14, Colorado 1, May Day 3, Eagle and Blue Bell 1, Chief Consolidated 1, Uncle Sam 4, East Tintic Development 2, Iron Blossom 41, Dragon Iron 34, Beck Tunnel 4, Ajax 3; total 192 car loads.

CONCENTRATES.

John Dern has returned from a trip W. E. Vigus, secretary of the Utah Karns Tunneling Machine company, has returned from Sanpete county,

where he has been on business. Peter Targhetta, manager of the East Prince Consolidated Mining company of Pioche, is in the city. He says two shifts are now at work on the property.

C. C. Griggs, superintendent of the May Day and Uncle Sam mines, was in the city yesterday. He was on his way back to Eureka after taking a va-

cation in the northwest.

C. E. Short and F. C. Richmond expect to leave tonight for Modena to look for the site for the power plant of the Gold Springs Mining & Power com-

The Consolidated Mercur Gold Mines company yesterday marketed its July output of gold from its mill, amounting to \$58,000. This is considerably under the regular output from the property. A. J., Dutton, a well known mining man from Denver, who is in the city, declares that the people of Salt Lake should advertise their city more. He asserts it is on the verge of moving ahead rapidly but needs more boosters. The new mill of the Cannonball Consolidated Mining company in Little in operation by Sept. 1, is the word brought from the district by John Edwarded. wards, son of Manager George Z. Ed-

At the regular quarterly meeting of the Goldfield Consolidated Mines com-pany directors at Boston, A. H. Howe of Goldfield was elected director of the company to succeed Charles Hayden, resigned. The usual quarterly dividend of 30 cents was declared, payable Oct. 31, to stockholders of record Sept. 30.

It is understood that the United States Smelting, Refining' & Mining company is figuring upon taking over the control of the St. Lawrence Mining company at Shoshone, 12 miles south of Osceola, Nev. Mines Manager C. E. Allen and Engineer J. Fewson Smith of the United States company

are examining the mines. A report from Morgan county de-clares that 4 feet of steel galena ore has been opened up at the Carbonate Gem mine, which adjoins the Carbonate Hill property, owned by Matt Daugher-ty and others of Salt Lake. The re-port has it that the ore was found 300 feet below where ore is now being taken out of the Carbonate Hill.

A contract has been let to F. C. Richnond for 71 carloads of railroad equipment, such as rails, ties and other ne essaries, for the building of the railroad from Wabuska to the mines in the Ma-son Valley district in Lyon county, Nev. The contract was let by the Nevada Copper Belt railway, which is a subsidiary organization to the Nevada Doug-

las Copper company. An interesting assay has been made of ore found in a 50-foot winze off the 100-foot level at the Pioche Metals property at Pioche. The assay shows the presence of high values in copper, which is something new in the Pioche which is something new in the Flocked district and is looked upon as a great factor to demonstrate the great mineralization of that district. The figures on the assay were: 14.6 ounces in silver, \$1.60 gold, 32.4 per cent lead, and

16.22 per cent copper. H. Hardy, former sheriff of Salt Lake county, declares that the advance of 1 cent a pound on the tariff on zinc will do wonders for the Good Springs district. Te says that greater interest is being taken in the district and that many of the low grade mines will short-ly begin shipping their product. W. A. lark recently had an expert in the district getting a line on the tonnage for his proposed smelter at Las Vegas

or Caliente. Advices from Boston are that stockholders of the Ray Consolidated Copper company will be given the right to subscribe for the new issue of 200,000 shares at the rate of 26 shares for each 100 standing in their name. It is understood that of the \$3,000,000 convertible bonds, \$2,645,000 has been converted to allow the holders to subscribe for new stock at \$15 a share. The conversion reduces the only fixed charge of the company to a few hundred of thousands

MINERAL FLAT MAKES **GOOD SHIPMENT OF ORE**

Five Thousand Pounds of Galena Sent To Smelter from Upraise in Property in American Fork.

Although the stock of the Mineral Flat Mining company has been remarkably low during the past week there have been some very encouraging reports come in from the property. A number of old miners who have come down from the canvon declare that the property is now more promising than ever. Ore has been found in a number of places and shipping ore could be sent down if the company should be so disposed, it is said. The Knight interests have always been very friendly with the public, but since the market has been playing capers with their stocks this confidence has been withdrawn to some extent.

The first shipment of ore from the Mnieral Flat mine reached American Fork Tuesday evening, declares a person who was recently at that place. The shipment consisted of 5,000 pounds of steel galena, carrying good values in ead and silver and is of an excellent fluxing quality. That the ore is high grade is shown by some of the assays made of it. These showed the presence of mineral valued at \$90 a ton. The ore was taken from the apraise in the mine which the company is run-ning from the middle tunnel, and where an ore bearing chute some 200 feet long has been discovered. In the lower tunnel the company is

now engaged in running a crosscut to tap this same vein, and according to the reports received from the property. the lead runs through the rock and another ore body will in all probability soon be discovered. Two drifts are beng run to the right and work is also ing run to the right and work is also being done to the left on fissures which were tapped some time ago, where a nice vein, but small, was uncovered. Manager Jensen has always been confident that the company would proye up a good mine. President Jesse Knight has shown his confidence in the property in the way he has prosecuted the development work. Present indications to to show that this confidence will be

STOCK MARKET HAS BEEN WEAK

General Business of Country Was Upward While That of Securities Was Downward.

HARRIMAN'S HEALTH FACTOR.

Union Pacific Lost Over Ten Points-Money Abundant and Demand Light.

New York, Aug. 28.-The securities market and the general business of the country continue to march in opposite directions. Stocks went considerably lower this week, following the return of Mr. Harriman with his health only partially restored, and his plain declaration that no plans are pending in

Union Pacific lost over 10 points in the course of the week, with severe declines in the preferred stock, Southern Pacific and allied stocks. The general situation shows increasing betterment. Money is abundant and in light demand. Bank clearings for the week gained over 40 per cent compared with 1908. Western and Southernwestern financial institutions of the week gained over 40 per cent compared with 1908. Western and Southernwestern financial institutions show large cash reserves to meet crop movements. Spring wheat is practically all harvested and on the way to market. Corn continues to suffer from drouth and cotton has done better in some sections, while falling back in others. Merchandise movements are gaining rapidly. Improvement at all the leading centers of industry is attested in the activity of the mills, higher prices for manufactured parts and unusually heavy output of pig Iron. The week also brougt very heavy exports of copper at advancing prices. lested in the activity of the mills, higher prices for manufactured parts and unusually heavy output of pig iron. The week also brougt very heavy exports of copper at advancing prices. While the stock market opened under pressure today there was not such excitement and activity as was apparent in recent days. The Harriman stocks were the center of attack at the opening with a break of 2 points in Union Pacific and half as much in Southern Pacific, Colorado Fuel. American Car and Northern Pacific also dipped 1½ and New York Central and Reading 1. United States Steel was firm in contrast to the general run of prices and got up ½. The market had a brief resting spell from the stream of liquidation and there were some rallies which imparted a better tone to the market for a while. Later on the flood-gates were opened again and under an avalanche of stock. Union Pacific broke precipitately to 194½, an overnight loss of 5½. Severe losses also were registered in other representative stocks, Wabash preferred going down 3 points, Northern Pacific 2%. Reading 2%, Southern Pacific and New York Central 24, and Delaware & Hudson 2. Other losses ranged from 1 to 1½. Shorts bought heavily at the low figures and there was a rally of almost 2 points in Union Pacific, which resulted in somewhat steadier tone at 11 o'clock.

The market closed active and strong sentiment became more hopeful when the rally failed to bring out any considerable amount of stock and 4 brisk inquiry developed for both accounts. Union Pacific rallied 3, Reading wiped out a loss of a similar amount and United States Steel was pushed above yesterday's closing. These stocks figured most consplcuously in the recovery, but many others also maved up notably.

PRODUCE.

Chicago, Aug. 28.—An advance of % to %d in the price of wheat at Liverpool was the signal of a bullish demonstration at the opening of trade in the wheat market today. The principal demand was for the September delivery and prices were readily forced up from % 20 ½ to % 24 % on initial transactions, opening quotations being at 99% to 1.00. Other deliveries showed gains of a shade to %, December opening at \$5% to 35%. to 35%. December opening at the to 35%. After the first rush was over the demand dwindled to small proportions and September sold off to 39%. December sold at 95% and then dropped back to

Solu at 50% and the complete considerable selling of corn early in the session. Opening prices were ½ to ½@% lower, September being at 65%. Later September sold off to 65%.

Oats opened steady on good commission house buying, but weakened with corn September opened unchanged to ½ corn. September opened unchanged to % @4 higher at 374 to % and sold off @4 higher at 37½ to ½ and sold off to 37.

Light receipts of live hogs inspired moderate buying of provisions at the start which caused slight advances throughout the entire list. Opening prices were a shade to 7½ higher.

Wheat—The market became weak in the last half of the session owing to the sharp declines at all northwestern markets due to pre-pective liberal arrivals of new wheat. September declined to 38½ and December to 93½.

The close was weak, with September off ¾ @ 7½ at 98½. December was down 1½ @ ½ at 93½.

Corn—Prices siumped still further with the break in wheat, September declining to 65½. The close was weak with September down ½ at 65½.

Close—Wheat—Sept., #8½; Dec., 93 %; May, 97% @ 4.

Corn—Sept., 85½; Dec., 36½; May, 30½ @ 4.

Pork—Sept., 22 47½; Jan. 17,67½.

Pork—Sept., 22.47½; Jan., 17.67½, Lard—Sept., 12.20; Oct., 12.17½; Nov., 1.71½; Jan., 10.50; Ribs—Sept., 11.82½; Oct., 11.70; Jan. .35, Ryc_Cash, \$9.747; Sept. 68; Dec., 56, Barley-Cash, 50766, Timothy-Sept., 3.60; Oct., 3.60, Clover-Cash, 11.30; March, 12.05@12.35.

SUGAR AND COFFEE. New York, Aug. 28.—Sugar, raw, steady. Fair refining, 3.51; centrifugal, 96 test, 4.11; molasses sugar, 3.56. Refined—Steady. Crushed, 5.75; powdered, 5.15; granulated, 5.65. Coffee-Quiet, No. 7 Rio, 7%; No. 4 Santos, 8½@9.
